Dear Sirs,

The Republic of Croatia as a traditionally maritime state continuously dedicate special attention to maritime traffic development but also to improvement of safety of navigation and sea pollution protection.

Taking into account that the sailor is the most important factor in protection of human lives on sea, protection of sea environment and safe navigation, this Ministry by numerous measures stimulates growth and development of labour market in maritime affairs by ensuring the education and trainings in accordance with STCW1978 Convention, cost-effectiveness of professional improvement, providing students of maritime learning institutions with scholarships by also through measures of social protection of sailors and arranged system of employment intermediation.

Having that in mind, we can surely say that internet portal www.maritime-connector.com, being on the scent of aforementioned measures, is reflection of regulated labour market and a great example of initiative focused on strengthening the competitiveness of Croatian sailors on international market.

With regards,

MINISTER'S ASSISTANT

Capt. Mario Babić
